

What is our Ocean Passage Making Class About?

Yacht Preparation and Departure

Use Celestial Navigation

Catching Dinner While Underway

Learn skills required to safely sail offshore for an extended period. 7-12 day live aboard classes, which provide students with an understanding of yacht preparation for ocean sailing, course planning, working a watch schedule, use of celestial navigation, weather analysis, storm avoidance, heavy weather sailing techniques including use of drogue and storm jib, use of radar, techniques for crossing the Gulf Stream, and other elements involved in ocean passage making. All classes taught by an ASA certified and USCG Ocean Master captain.

[Norfolk, VA to St. Thomas, USVI November 1-12, 2022 with optional three-day trip from Rock Hall, MD to Norfolk, VA. Distance 1450 nautical miles. Instructor-Captain Mike Brown. Price- \\$3999 for singles and \\$7,198 for couples.](#)

Price includes all on board food and beverages for passages. Same price with or without ASA certification. Prerequisites for ASA108 are ASA101-ASA107. Students who have ASA101-ASA104 but can get certified to ASA105, ASA106, ASA107, and ASA108 by also signing up for ASA105 and ASA107 home studies and must also do trip up or down the Chesapeake Bay either from Rock Hall, MD to Norfolk, VA or Norfolk, VA to Rock Hall, MD.

Our ocean passages are way beyond what other schools offer.

Although not required some students also do a home study for ASA119 Marine Weather to help prepare them for the passage.

Land Ho

Captain Mike Brown

Captain Tom Hamilton

Prerequisites: In order to get certified to ASA108 Ocean Passage Making students must have already completed ASA101, ASA103, ASA104, ASA105, ASA106, and ASA107. It is also possible to participate in the ocean passage making classes as a non ASA Certification candidate. Students without the required ASA prerequisites must submit a sailing resume showing that they are well prepared for an ocean passage.

Our Ocean Passage Making Classes are real passages and students are subject to the same constraints that anyone would experience on an ocean passage.

Ocean passages are subject to weather and boat repair related delays. If our weather router says we need to depart at a later date due to adverse weather, we could be delayed until the weather clears. It is less likely but possible that we could experience some boat related issue and be delayed while repairs are made. Before signing up for an ocean passage potential students should make sure their schedule is flexible enough to allow them to depart and/or arrive later than our published schedules. No refunds are given due to weather or boat repair related delays.

By paying for an ocean passage making class you acknowledge that you have been informed of this policy.
